Interest

Local

Difficulty

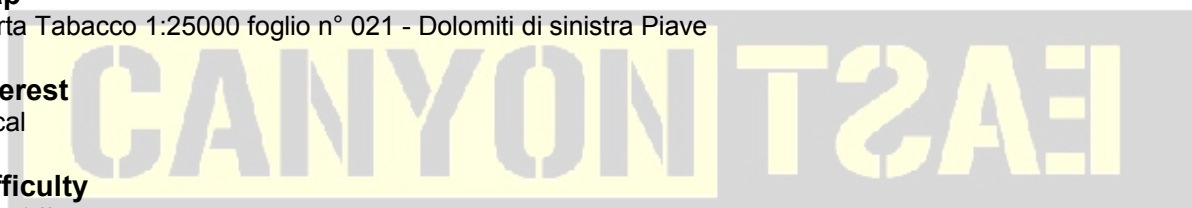

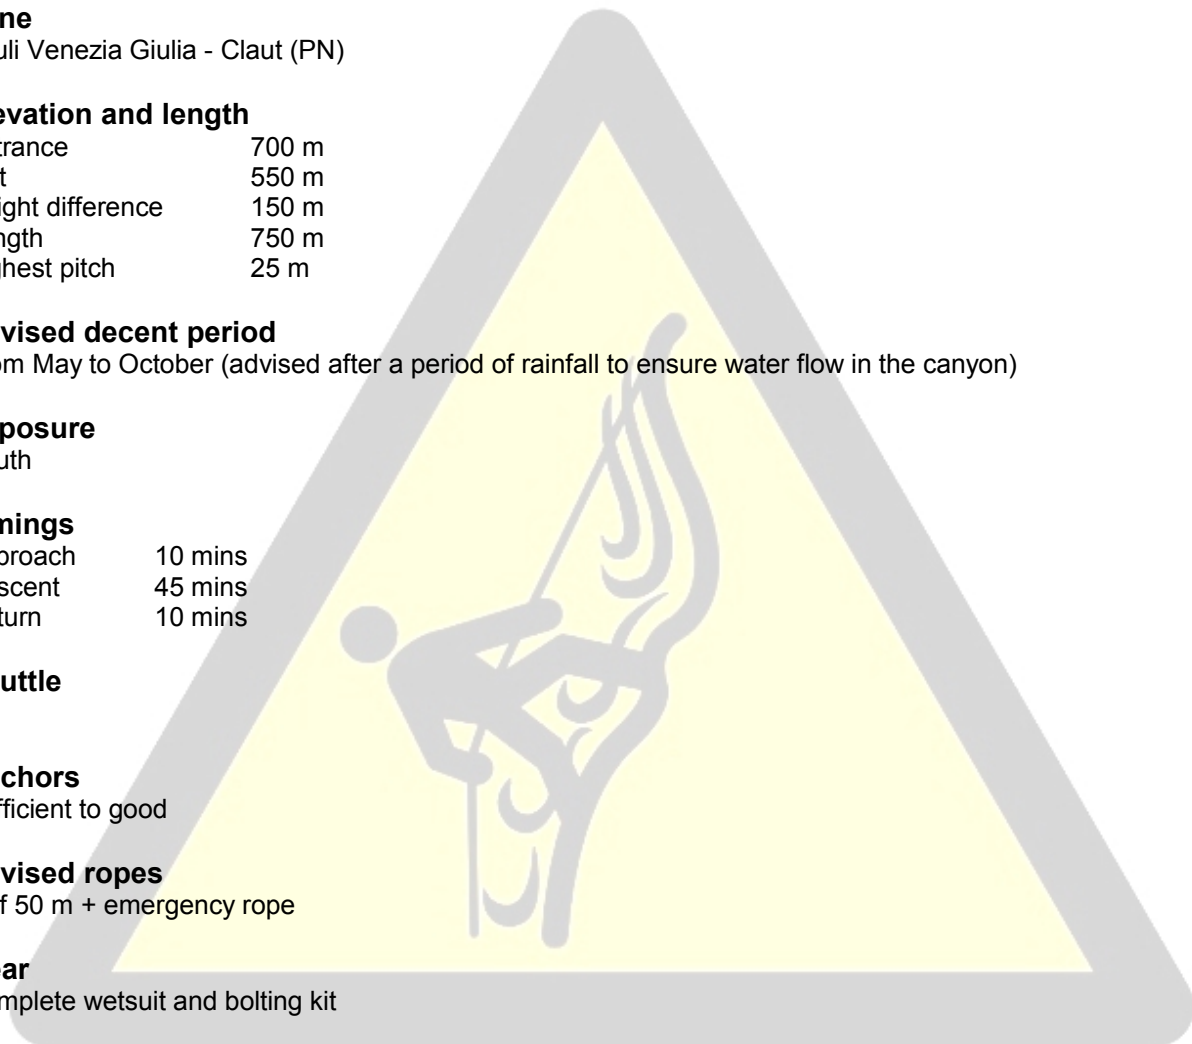

V3 a1 II

Coordinates (WGS84) for downstream (valley) parking

-

Coordinates (WGS84) of the riverbed access point (start of canyon)

-

Approach to the valley (lower car park)

Following the SS 251 towards Longarone, turn right in the direction of Claut. Just before the town, take the road on the left after a bus stop (wooden shelter) and follow it to the bridge over the canyon. Shortly after the bridge there is a clearing with a stone cross, where you can leave the car.

Approach to the canyon (walking)

From the bridge, take the trail near the railing that goes up the river on the left bank and leads to a water intake that leads to the river bed and the first abseil.

Description and technical notes

01 - MC R + P 8 L

02a - P 10 L

02b - P 10 R

03 - P 10 L

04 - P 7 L

05 - T 3

06 - J 3

Possible exit on the left bank by walking up to the bridge

07 - MC + P 25 R (under the bridge)

Exit

After the last pitch, a small road on the left leads to the houses and then to the road where the car is parked.

Notes

The first descent was made by members of the CNSAS station of Valcellina.
